Applicant should therefore be granted an exception to Rule:165:10-3-28(c)(2)(b) in order that Applicant's proposed well may be situated closer than 600 feet from the existing wells described above.

All of the Southeast Quarter (SE/4), Section Eight (8), Township Twelve (12) North, Range Fourteen (14) West of the Indian Meridian, City of Weatherford, Custer County, Oklahoma; and

All of the Southwest Quarter (SW/4), Section Nine (9), Township Twelve (12) North, Range Fourteen (14) West of the Indian Meridian, City of Weatherford, Custer County, Oklahoma; and

All of the Northeast Quarter (NE/4), Section Seventeen (17), Township Twelve (12) North, Range Fourteen (14) West of the Indian Meridian, City of Weatherford, Custer County, Oklahoma.

The proposed Increment District is the area within which Ad Valorem Increment Revenues, retail and construction related Sales Tax Increment Revenues, and Leverage Act Increment Revenues (collectively, the "TIF Revenues") may be captured and utilized for the payment of Project Costs as described in the Project Plan. The proposed Project Area is the broader area within which project activities, including construction of the supporting public improvements, will take place.

A draft of the Project Plan, which includes an analysis of the project eligibility and financial impacts, may be reviewed by any person interested, in the Office of the City Clerk at the Weatherford City Hall, 522 West Rainey Avenue, Weatherford, Oklahoma 73099, during normal business hours from 7:30 a.m. to 5:30 p.m., Monday through Thursday, 7:30 a.m. to 11:30 a.m. Friday, and at the following web address: www.cityofweatherford.com.

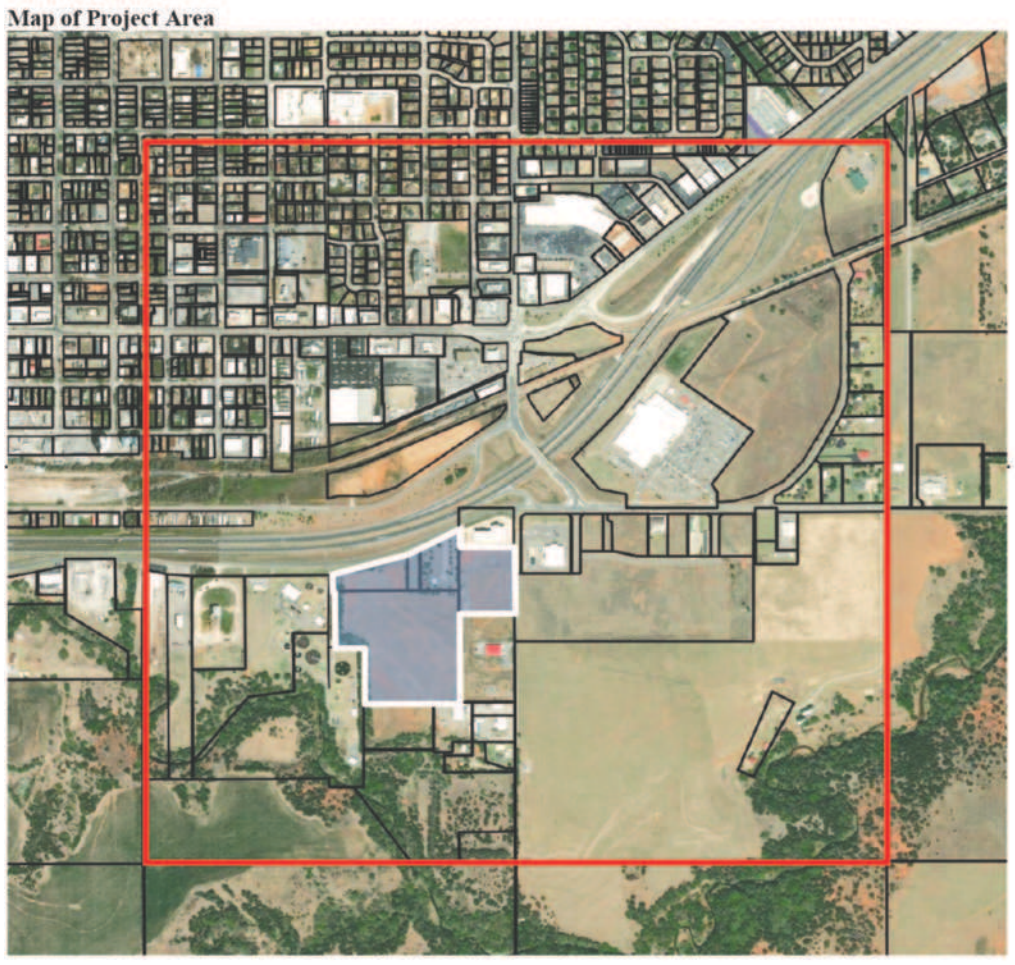

The Red Plains Marketplace Economic Development Project Plan contemplates the creation of a tax increment district that brings a transformative commercial development to a previously undeveloped area along the South Access Road (south side of Interstate 40) just west of the Washington Ave. Exit 82. The City has identified potential development interests that propose to develop the identified parcels with a large inline retail center, with additional retail and restaurants sites,, that would promote growth in Weatherford while addressing critical infrastructure constraints (referred to herein as "Project"). The proposed Project Costs (as described in the Project Plan) total approximately $14.0 million, including necessary public infrastructure and economic incentives to fully develop the area within the Increment District. The City expects the development interests will complete the required improvements and be reimbursed from future TIF Revenues. The City also expects to pay Organizational Costs in the amount of approximately $100,000, along with annual administration costs associated with the Increment District not in excess of $10,000 per year, all to be paid from available TIF Revenues in addition to the specifically identified Project Costs. The total of all authorized Project Costs is $14.22 million. Based on the preliminary development projections assuming an estimated total capital investment of approximately $75.96 million within the Increment District, it is anticipated that approximately $6.58 million in ad valorem tax TIF Revenues will be generated during the term of the Increment District, with approximately $3.29 million available for the payment of Project Costs, and the balance of approximately $3.29 million apportioned to the affected taxing entities. With respect to the ad valorem tax TIF Revenues, the Project Plan contemplates the capture of 100% of such revenues during the term of the Increment District, but 50.0% of such revenues, will be apportioned to the affected taxing jurisdictions. Additionally, it is projected that approximately $934.72 million in taxable retail and construction related sales will generate approximately $42.06 million in City sales tax revenues and $4.67 million in County sales tax revenues, with 50.0% of such City sales tax ($21.03 million) apportioned to the payment of Project Costs, and the balance accruing to the City. None of the County sales tax revenues will be captured by the proposed Increment District. The apportionment of City sales and use tax may also qualify for State of Oklahoma matching funds, pursuant to the Oklahoma Local Development and Enterprise Zone Incentive Leverage Act, 62 O.S. §840 et seq. (the "Leverage Act"). The Increment District shall commence on a Commencement Date as established by the City Commissioners, and continue for a term of approximately twelve (12) years, or the payment of all Project Costs, which ever occurs first.

Incremental increases in ad valorem tax revenue and sales and use tax revenue that are generated within the boundaries of the Increment District will serve as the revenue source for financing the proposed Project Costs, including interest and other costs associated with financing said Project Costs. Said revenues are the public revenues directly attributable to the Project resulting from establishment of the Increment Districts.
