Lawmakers examine grid-enhancing technologies

to meet Oklahoma's growing energy demand

Oklahoma lawmakers examined emerging technologies and strategies to strengthen the state's electric grid and meet growing energy demand during an interim study at the State Capitol.

The study, requested by Rep. Nick Archer (R-Elk City) and Sen. Casey Murdock (R-Felt) heard from Oklahoma's largest electric utilities, the Southwest Power Pool, the U.S. Department of Energy, the National Electrical Manufacturers Association, and the Pew Charitable Trusts to discuss the state's transmission and distribution systems and technologies that could improve grid capacity and reliability.

"This study wasn't about reaching a predetermined conclusion," Archer said. "It was about understanding what technologies are available, how they're being evaluated today and what technical, economic, or regulatory barriers may affect their use."

Archer told the committee energy usage in the U.S. and Oklahoma has been relatively flat for two decades but is currently undergoing a "very extreme demand for power."

"Over my 12 years in state service, proposed transmission projects have repeatedly triggered nasty eminent domain fights across my district," Murdock said. "This study gave my legislative colleagues a better understanding of new grid-enhancing technologies that can strengthen our electric system and lower costs for consumers, all without massive new transmission lines. I look forward to continuing to work with Representative Archer on bringing these grid enhancements here to Oklahoma."

Adam Snapp, director of transmission planning for Oklahoma Gas & Electric, discussed grid-enhancing technologies (GETs) such as static synchronous compensators, which provide dynamic voltage support, and advanced power-flow control devices that can help reduce congestion and make better use of existing transmission lines.

Snapp said OG&E has used GETs since 2007 and plans to continue using them as appropriate, describing them as a "valuable tool in the toolbox." He also noted that when existing structures are nearing the end of their service life or a significantly larger conductor is needed, rebuilding a transmission line may be the most cost-effective option.

Jeffrey Ellis, director of distribution planning for Public Service Company of Oklahoma, said utilities are already using these technologies as they evaluate how to best serve ratepayers. He emphasized that grid-enhancing technologies are not a replacement for traditional transmission in every circumstance.

"GETs and traditional transmission are not competitors," he said. "Advanced technologies may increase capability or address particular transmission constraints in the right circumstances, but they do not eliminate situations where maybe rebuilding is necessary."

Richard Ross, director of transmission readiness and seams planning for the Southwest Power Pool, discussed the challenges of meeting long-term transmission needs, noting that many of the best long-term solutions can involve large transmission lines that take years to bring into service.

David Parsons, deputy director of the U.S. Department of Energy's Office of Electricity, echoed that sentiment, telling legislators demand is changing faster than many of the core infrastructure processes traditionally relied upon to serve it.

The discussion comes as Oklahoma considers how to prepare its electric system for increasing demand while making efficient use of existing infrastructure. Last session, Archer and Murdock authored House Bill 3183, the GET Over Congestion Act, which would have required utilities to analyze the cost effectiveness of deploying advanced transmission and grid-enhancing technologies to address congestion.

Archer said the discussion provided lawmakers with a better understanding of how utilities and regional planners evaluate transmission needs and where emerging technologies may fit within that process.

MICHELLE GREEN, an Individual, o/b/o B.G., a Minor, Plaintiff,

v.

HORACIO PEREZ, an Individual; and MATTHEWS & ASSOCIATES LLC, a Domestic Limited Liability Company, Defendants.

**Case No. CJ-2026-44
Judge Jennifer McAffrey
NOTICE OF PUBLICATION**

TO: HORACIO PEREZ

PLEASE TAKE NOTICE that a Petition has been filed against you in the District Court of Delaware County, Oklahoma, in an action entitled Michelle Green, an Individual, o/b/o B.G., a Minor v. Horacio Perez, an Individual; and Matthews & Associates LLC, a Domestic Limited Liability Company, Delaware County District Court Case No. CJ-2026-44. This summons by publication is specifically directed to Horacio Perez, an Individual.

The nature of this suit arises out of your alleged failure to prevent a dangerous dog from injuring the Plaintiff. Plaintiff claims your intentional, wanton, and reckless disregard for Plaintiff was conducted with full knowledge, in that you knew, or should have known, of the severe adverse consequences of your actions upon B.G. and others. B.G. suffered personal injuries, including mental, emotional, and physical pain and suffering, anxiety, medical expenses, and other actual damages. You are hereby notified that you have been sued, and you must appear and answer the above lawsuit. The Plaintiff claims damages against you exceed $75,000.00 with interest accruing from the date the Petition was filed, plus punitive damages for intentional, wanton, and reckless conduct.

Unless you answer the petition no later than the 10th day of November, 2026, judgment will be taken in favor of Plaintiff, and against you for the amount claimed, in addition to costs of the action, including attorney fees, where provided for by law.

YOU MAY SEEK THE ADVICE OF AN ATTORNEY IN THIS MATTER. YOU SHOULD CONTACT ONE IMMEDIATELY IF YOU INTEND TO DO SO.

**Attorneys for Plaintiff:
Donald E. Smolen, II,

IN RE: The Application of
1984 Pacesetter Mobile Home
To Issue Title

**Case No. CV-26-163
AMENDED APPLICATION
FOR COURT ORDER**

COMES NOW the applicant, Gypsy and/or Timothy Bentley of Kansas, Oklahoma, and hereby makes Application to the District Court of DELAWARE COUNTY to issue an order directing Service Oklahoma to issue an Oklahoma Title bearing the VIN # GDCAAR03842725AB in the name of Gypsy Bentley and/or Timothy Bentley for a 1984 Pacesetter Mobile Home

In support of this application, the Applicant would state under oath that he is the Owner of said vehicle. That the above described property is not stolen. That he/she claims ownership to the above described property as follows:

Property was purchased at a Delaware County Treasurer Auction July 2025

That ownership of the above described property is not disputed or that an ownership interest may be claimed by Gypsy Bentley and/or Timothy Bentley, whom I will have served with a copy of this application along with summons notifying them of the allegations of this application and date and time of the hearing.

Dated this 7th day of October, 2026.

/s/ Gypsy Bentley

Notice of Initiation of the Section 106 Process: Public Participation

Harmoni Towers proposes the construction of a self-support style telecommunications tower within an 80' x 80' lease area approximately 290 feet south-southwest of Laurin Ln. & Sunshine St., Kansas, Delaware County, OK. The height of the tower will be 53.3-meters above ground level (175-feet above ground level) and 56.4-meters above ground level including appurtenances (185-feet above ground level with appurtenances). Proposed project will include ground disturbance. Members of the public interested in submitting comments on the possible effects on historic properties included in or eligible for inclusion in the National Register of Historic Places may send their comments to Andrew Smith, RESCOM Environmental Corp., PO Box 361 Petoskey, MI 49770 or call 260-385-6999.

NOTICE OF APPLICATION TO USE GROUNDWATER

Fiddle Leaf Solar, LLC c/o Mohamed Babiker of 2322 West Grand Parkway North, Suite 200, Katy, TX 77449 has filed an application, #2026-544, with the Oklahoma Water Resources Board (Board) for a permit to use 160 acre-feet of groundwater per year. The groundwater is proposed to be used for industrial (construction dust suppression and site access road maintenace) and taken from 80 acres located as follows: 10 acres in the NW NW SE and 70 acres in the E2 SW of Section 36, T21N, R25EIM, Delaware County. The water is to be withdrawn from one (1) well in the SW SE SW of Section 36, T21N, R25EIM, Delaware County, and use the groundwater in Delaware County, Oklahoma, as more specifically described in the application, viewable at oklahoma.gov/owrb. Wells and dedicated lands are located over the Roubidoux groundwater basin. Use of groundwater is governed by Sections 1020.1 and following of Title 82 of the Oklahoma Statutes and rules of the Board, Oklahoma Administrative Code (OAC), Title 785, Chapters 4 & 30.

Protests to the application must be in writing and received by the Board at the address listed below and by the applicant at the address listed above no later than November 16, 2026, and contain the following: (1) name, designated email-address, mailing address, and telephone number of the interested person; (2) the particular application number to which the protest relates; (3) specific information to show how approval of the application proposed may directly and adversely affect legally protected interests of the person filing the protest; and (4) a statement of the relief sought by the interested person. Protests must also be mailed via certified mail, and return receipt requested to the applicant. Return receipts showing the protest was mailed to the applicant before the deadline must be provided to the Board within thirty (30) days following the deadline. Protests received by the Board before November 16, 2026, but failing to meet the requirements set forth above will be made part of the permanent record. However, the individual filing the protest will not be considered an interested party to the application.

If a protest that meets the requirements listed in the paragraph above is filed with both the applicant and Board, a hearing on this application will be scheduled and the applicant and protestant(s) will be advised of the hearing date. Protestants or their representatives must appear at the hearing and present the protest to be considered. Hearings are governed by Section 309 of Title 75 and Section 1020.8 of Title 82 of the Oklahoma Statutes, and the rules of Board, OAC Title 785, chapters 4 and 30. If you have any questions, please contact Sharon Robinson at (405) 530-8800. Board mailing address: Oklahoma Water Resources Board, Water Rights Administration Division, 3800 N. Classen Blvd., Oklahoma City, OK 73118-2881. Board email address: protest@owrb.ok.gov Board fax number: (405) 530-8900.
