On the Board of County Commissioner's office expenses Wesson stated that he wanted District #2 to be off of the Board of County Commissioner's office. Friddle stated he had tried to do that seven years ago but it did not work out. County Clerk Kay Spurgeon stated that what she was understanding was that District #2 did not want to pay for anything at all for that office. Wesson stated yes that was correct and he was wondering why it did not come out of general for the pay instead of the highway accounts. Friddle stated it has never been paid from the general funds. Spurgeon stated that was because the general funds usually doesn't have enough money and it is not included in the budget and the person in that office handles things for the districts so the secretaries do not have to and also does the Fair Board and the cemeteries books and multiple other things. Friddle stated we could turn the fair board stuff back over to the fair board but the cemeteries we do not have anyone to handle them. Wesson stated he would like this to be put back on the agenda for next week so he could check into it some more. Wesson moved to table. Seconded by Friddle. Laurie Summers Emergency Management stated she had a list of 22 reports of damages from the storms. Summers stated she did get the window on the emergency management truck fixed on Saturday and on Sunday she started at the state line and worked her way down for any damage due to the storm. Summers stated that it does not look like at this point that we are going to get any federal funding due to the state not meeting the damage amount but she will continue to ask for any funds that are available for the damages. Summers stated there would be a LEPC meeting on Wednesday July 15, 2026 at 2:00. Summers stated she had met with the Cherokees about the storm sirens and she was very encouraged by what was said.

Sudoku uses pure logic and requires no math to solve. It is a number-placing puzzle based on a 9x9 grid with several given numbers. The object is to place the number 1 to 9 in the empty squares so that each row, each column and each 3x3 box contains the same number only once.
